

The Global Recovery Organization
And the Caroline's Poster Documentary

A Global Recovery, Inc. Project

Executive Summary

2020

Global Recovery, Inc. is a non-profit organization. This Organization is owned by its Founder Carol Lombard Clark. The company is incorporated in the state of Delaware and the 501c3 status has been filed based on state specified regulations of Delaware.

The Global Recovery Organization appeals to the veterans of the United States and their families.

The Global Recovery Organization will be an established outreach program to those who suffer from the effects of war trans-generationally, and to expand internationally.

The Global Recovery Organization will offer a full range of recovery services, such as online meetings for individuals to recover through a 12 precepts program. A detoxing program will be offered. An e-book program will be brought forward for the participants for them to tell their stories anonymously and emotional cleansing through a primal recovery process.

The Recovery Center: A Global Recovery Building “Resort”.

Our Organization will establish a facility that individuals can stay. It will offer 28 days of treatment for the vets and their families where they will be able to detox, go through different modalities of cleansing; like our juicing program, IV infusions and heal emotionally the scars of war with our own designed primal boxes.

A nonprofit: *Charitable nonprofits embody the best of America. They provide a way for people to work together for the common good, transforming shared beliefs and hopes into action. They give shape to our boldest dreams, highest ideals, and noblest causes. America’s 1.3 million charitable nonprofits feed, heal, shelter, educate, inspire, enlighten, and nurture people of every age, gender, race, and socioeconomic status, from coast to coast, border to border, and beyond. They foster civic engagement and leadership, drive economic growth, and strengthen the fabric of our communities. Every single day.*

Imagine an individual in need of recovery going to a healing facility with the expectation of healing the wounds of war and change his/her life for a healthier life. As you walk inside you’re greeted by very caring people who understand the process of recovery through the 12-precept process. A spa atmosphere; a state-of-the-art place that can offer massages and detox scrubs such as seaweed body wraps. A place where our Juicing Program accommodates our guests who want to stay a couple of weeks to recover. A place that has hyperbaric chambers that floods the body with oxygen and calms the brain from trauma. We will have Primal Therapy Boxes with or without a therapist present. A place that has a room with a stage where people come for workshops and to write their own stories and share at the end of the workshop. They will be able to perform their own dramas of how war affected them and their families for others to feel free enough to express themselves without the freedom of any cross talk or fixing or projecting onto someone else’s process. People will share their recovery as they go through their healing process and continue with the process themselves. It’s a way of helping others, as all feelings are acceptable, while healing at the same time by sharing and focusing on themselves and what recovery has brought to their own lives.

We envision a building full of nature with foliage and waterfalls and a calmness that only nature can bring. One in which you look outside the window and see the amazing Ocean, beautiful beaches and where there are trails to walk through a majestic setting everywhere you look. The feeling of freedom, freedom to share freedom to recover as each individual wishes.

Our Purpose

To aide veterans and their families around the world to recover from their effects of Post-Traumatic Stress Disorder (PTSD). Consequently, heal society.

You need to have a purpose. You find a purpose when you need a solution to a problem or a circumstance. When veterans go to war and come back home, and they are not treated properly for their post-trauma the whole family becomes sick as well. Therefore, everyone in their family's needs recovery.

If we consider our veterans heroes, then our heroes should be in the best possible healing position. And that includes their families. Because having their families in their own recovery process helps the veteran emotionally too. Then we will have a healthier society.

Our Goal

- Raise money for our Recovery Center
- Establish our Organization's Headquarters
- Become an accredited Fund Raiser Organization 501c3
- Become a Renowned Humanitarian Organization

Preliminary Budget

Recovery Center	\$25,000,000.00
Headquarters	\$15,000,000.00

Total: \$40,000,000.00

About the Founder: Carol Lombard Clark

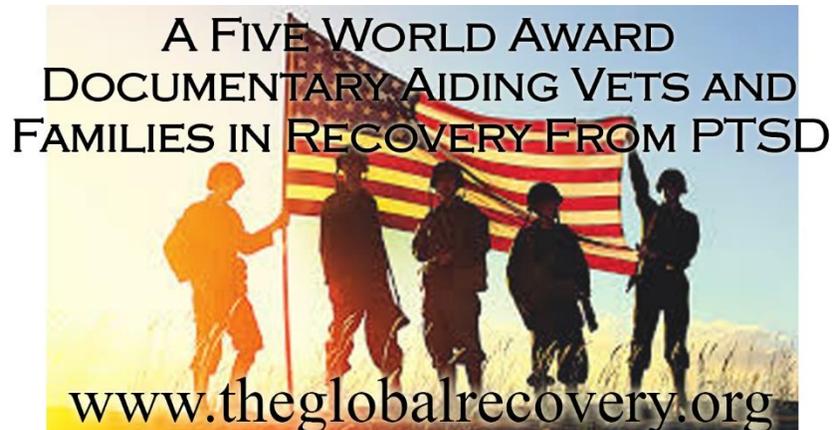

From **Best Woman Director** to **Hollywood International Independent Documentary Award** and winning **The World impact Award**.

Ms. Lombard Clark is an example of what being a humanitarian woman means.

It is not about who you are but about the impact you make in other people's lives. Read her story and become the story of humanity...

Carol Lombard Clark has traveled around the world twice and has interviewed senators, high ranked military men and women, and very important people to explain the effects of military caused and inhouse alcohol abuse causing PTSD. She tells her story in her award-winning documentary about losing her loved one in the Vietnam war and how she was affected with the symptoms of PTSD mixed with alcoholism turning her family around.

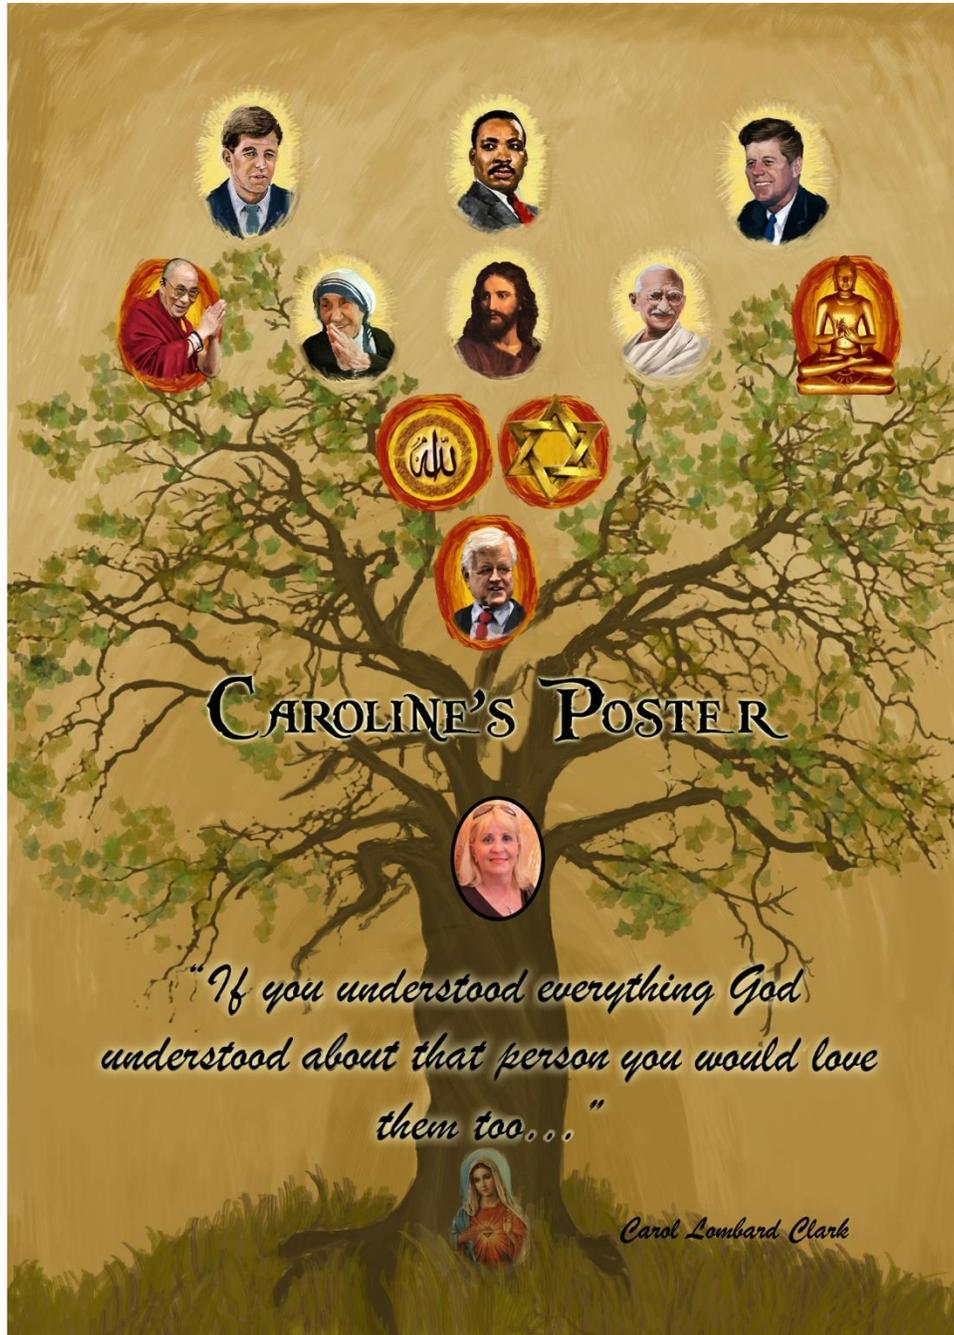

Her Accomplishment...
